很高興獲得此成績，真要多謝同學的支持！中四上學期時，不瞭解文憑試各科的考評準則，後來掌握了，我就為自己定立較高的目標，以此奮發。文憑試前自修期，我每天都長時間溫習，只有吃飯及洗澡時能完全放鬆。溫習時全情投入，兩三小時要小休息一下，與朋友喝點飲品談談天。讀書總會遇上挫折，每人都是從失敗中走出來的，要對自己要求高一點，努力就能對得起自己。

It's amazing getting this result! Thanks to the support of my classmates. In the first term of S4, I was not quite sure about the assessment criterion. After I gasped the requirements of the assessment, I set a target for myself and tried my best to achieve it. During the self-study period, I spent most of the time studying. The only time to relax is taking a shower or having meals. I paid full concentration in my study and only took a little break between every two to three hours studying. During the break, I only took a sip of water or had a chat with my classmates. We may have time facing problems. In that case, we have to walk through the failures and put more effort to overcome our difficulties.

我的努力終沒有白費！讀高中我每天都回家溫習，所讀越來越多，確很辛苦，放榜前是很擔心的。面對如此大壓力，我多會彈琴、與同學做運動及聊天、向家人傾訴以舒緩心情。希望將要應考的師弟師妹要堅持，努力讀書必有收穫，但讀書並非唯一的路，每人有不同天賦，最重要是發掘潛能。

All my hard work is worthwhile! It is really tough in doing my revision every day! The content is broad and difficult. Facing the examination pressure, I spent more time playing the piano, doing exercises and chatting with my friends and family. These activities can help release my pressure.

得到這樣的成績，實在驚喜！高考課程比會考課程艱深得多，所以我要時常溫習，做舊試題，不怕多花時間掌握答題技巧。考試臨近時，我知時間有限，於是精選課題鑽研，此法果然有效。溫習久了，有時也要玩一玩，放鬆一下，但要適可而止，保持奮勇狀態。我覺得讀書最要緊的，是選擇自己有興趣的科目，這樣的話，就算溫習辛苦也會感到滿足。有時候，不得已要讀一些興趣不大的科目，但若肯下苦功，或能培養出興趣來，我就是這愛上物理科的。

Receiving the results, I was very surprised. Compare with the HKCEE, the content of the subjects in HKALE is far more challenging. I had reminded myself to do revision more frequently and finished many of the past examination papers. It is worthwhile taking time studying the past papers and analyzing different answering techniques. When the exam was round the corner, I chose some topics and study intensively. This effective method can sustain my concentration and endurance in studying. Besides, you must cultivate the interest in studying. If you love that subject, you can find the fun and satisfaction in studying.

應付高考，真的很辛苦，幸好有家人支持我，於是我能好好控制情緒。這兩年我不斷整理所學，用心安排作息時間，最後精讀重點，現在取得此成績，叫我喜出望外。我寄語快要面對公開試的同學，準備最壞打算，有助應付變故。

It is really a difficult task in coping with the HKAL Examination. Luckily, I gained the support from my family so that I can maintain a stable emotion status. In these two years, I kept organizing what I have learnt. Besides studying, adequate rest can help improve the effectiveness in studying. Gaining this result, it was amazing. However, I want to share my motto with my fellow schoolmates, i.e. hope for the best, prepare for the worst.
